

# TRANSFER RUBRIC

## TEACHING TRANSFER

Check the appropriate level of implementation.

Promoting insight, construction of knowledge, creativity, unique applications, and social responsibility in classrooms.

**GUIDING PRINCIPLE:**

In classrooms where students are challenged to refine, evaluate, and synthesize new learning, transfer of learning is enhanced.

1

Teachers in our school rarely use the transfer strategies described in this chapter.

2

Teachers in our school sometimes use the transfer strategies described in this chapter.

3

Teachers in our school often use the transfer strategies described in this chapter.

4

Teachers in our school always use the transfer strategies described in this chapter.

### Reliable Indicators:

- Incentives for creative representation of content learned
- Perspective taking and real-world applications of new learning
- Extensive use of writing and documentation of understanding
- Quality student work displayed
- Self-testing and relearning
- Encouragement of insightful applications of content learned
